-IceWings love Frozen. SeaWings, on the other hand, prefer Moana. Fights over which movie is better have occurred. Many times. Meanwhile, the MudWings like both and just wonder why the IceWings and SeaWings refuse to try doing that.

-Some RainWing dragonets will go through a period of time where they only make their scales black and red.

-Talon-polish is totally a thing.

- Most young dragonets love SeaSponge SeaWing (the Pyrrhian version of SpongeBob). This goes for all tribes, even IceWings and NightWings. Sometimes the dragonets have their own shipping wars over SeaSponge and their parents sometimes take them to Amethyst Mountain, the mountain smack dab in the middle of the mountains, to have their shipping wars over SeaSponge. Just over half of the dragonets side with SandSponge, but some like StarSponge and even SquidSponge. Yes, they actually do fight with talons and teeth, but no limbs have ever been broken and nobody has ever died/had a severe injury.

-Qibli is a Dank Meme Dealer and has taught some more respectful memes to younger children. Parents are now plagued by a chorus of dragonets singing "Never Gonna Give You Up".
-Given the choice of talon polish, Kinkajou would wear a vibrant pink, while Moon would go with green and Turtle pink to match Kinkajou's. Then he'd adore his pink nails.
Winter wears icy blue talon polish and looks fabulous. Qibli wears black talon polish but looks equally fabulous. Peril can't wear talon polish, so she gives feedback on everyone's choice.
-Sunny sneaks broccoli into Clay's brownies.
-Starflight, while being smart in most studies, can also recite the entire script of the Bee Movie. He dislikes doing it when asked, though, and uses it mainly to tick off Tsunami.
-Tsunami found out about Undyne and cosplayed as her for Halloween. She still hasn't taken the armor off.
-Glory sometimes visits the hatchery to play games with the dragonets. She becomes a new, vibrant color every time she walks in.
-Kinkajou has tried to get Moonwatcher into ML and Steven Universe, but Moon, who has the curse of future vision, cannot enjoy any of it if she has a vision. She does like them, however, and her favorite gem is Steven.

-Qibli can and will beat anyone at Go Fish.
-Winter can and will fail every time he tries to challenge Qibli to Go Fish.
-Turtle has begun reading Percy Jackson. He loves it and is cosplaying as Percy next time Comicon rolls around.
-Kinkajou is the matchmaker friend and has made it her duty to find all of her friends (that aren't aromantic) soul mates. She ships Glorybringer full heartedly, and makes a point of telling Deathbringer-loudly, in the center of the kingdom- that Glory likes guavas.

When they were a few months old, the DoD watched the Bee Movie and Starflight made it his goal in life to make memes on it for the rest of eternity. This annoys Darkstalker A LOT and he is right on the verge of enchanted Starflight so he'll stop.

Clearsight wouldn't of betrayed Darkstalker if she had watched less dramas

Qibli secretly has a Be More Chill shrine in his closet. Umber found out and got offended by this because "HAMILTON IS *OBVIOUSLY* THE BEST!" and they're currently having a war because of this.

Tui secretly has a self-insert RainWing named Tui who will be a main character in the third arc.

-Bands exist in Pyrrhia. They are usually traveling around the continent, playing their new songs to dragons who will listen. One of these bands are My Volcanic Romance, a group of five Nightwings. The Rainwing dragonets that only make their scales red and black loved them to death, and were heartbroken when the dragons went their separate ways.

-Several other bands are Panic! on the Brightest Night, Twenty One Skywings, and Fall Out Dragonet.

-General Grievous would be an IceWing/RainEing hybrid.
-All NightWings go through an emo phase. Yes, even Starflight and Moon.
-The RainWings choose the Nature Flight or Light Flight. The SkyWings choose the Fire Flight, or the Wind Flight. The MudWings choose the Earth Flight. The SandWings also choose the Earth Flight, as well as the Light Flight. The SeaWings choose the Water Flight. The IceWings choose the Ice Flight. The NightWings choose the Shadow or Arcane Flight. The Plague Flight is made up of RainWings and NightWings who want to be different. The Lightning Flight is mostly weird SeaWings and IceWings.

Nightwings are gamers, using their advanced technology to play Persona and other Japanese games (and to learn more about scavenger lives)

Icewings radiate a chill right? I'd be surprised if no one has taken advantage of that already.

Winter: What are you doing
Kinkajou: it's too hooot
Winter: eww stop touching me
Moon: man, it's really hot
Winter: hey, you can come over here

The royal IceWing court is filled TO THE BRIM with young aristocratic Mean Girls who are out to murder each other.

Blizzard: *sniffles* Flurry, come over here... I heard Penguin specifically asked to go on the next hunting trip so she could outrank me. I, like, have no idea what I did to her... *sob* we used to be such good friends...
Flurry: Say no more I'm gonna find that little snake and rip her fake eyelashes off *storms away*
Blizzard: *leans over to Seal* *whispers* Penguin never did that. But Flurry deliberately wore the same earrings as me at the last dinner party so I'm just letting Penguin kick her tail for me.
